KINSEY GIVES MEDICS AN IMPROVED MECHANICAL HAND KINSEY YU HOI MING — MEDICAL U-ARM

Higher Diploma in Product Design, Hong Kong Design Institute

Top-Up Degree in Product Design, Birmingham City University

Silver Award (Concept Group), DiD Award (Dongguan Cup)
International Industrial Design Competition 2018

Bronze Award, Shunde D-DAY Creative Design Award 2018

The medical U-Arm is a crucial aid for doctors and nurses who need to diagnose patients by photographing parts of their body when illness has immobilised them. A piece of equipment with a camera affixed, it can be directed at any part of a patient from head downwards and student Kinsey Yu Hoi Ming has re-designed its basic industrialised appearance with a much more modern look, as well as making it easier to use — the handle, for instance is made of aluminium alloy, which gives it a smoother grip.
